

Maximizing Income and Managing Money Workshops

Are you worried about debt, struggling to make ends meet or just wish you were better at managing money?

Our six-week workshop programme could be for you.

The weekly, informal, one-hour session will give you the change to ask questions, look at resources and ideas, talk to other parents in a similar situation and reflect on what might help you personally.

The sessions will be participant led and tailored to your needs.

The next group starts on Thursday 28th January, 11am to Midday.

If you are interested in attending or would like to know more contact us at homestart.shpt@gmail.com and we will send you a link to access the group via Zoom using your phone, tablet, laptop or computer.
